-

Key message

The committee works to promote and expand the services of the Lions in Asia and is constantly looking for new possibilities where Lions can get involved to help people in an effective and efficient manner. Topics that are of interest to Lions both in Europe and Asia are discussed, and projects of European Lions in Asia are presented. Delegates of the forum and guests are cordially invited to see for themselves how the committee works, to attend a number of presentations and to get involved in the discussions. WE SERVE.
